

Cancer

The Sign of Sensitivity

Loving Perceptive Reliable Trusting

Cancer represents everlasting and caring emotions, and the Crab symbolizes adaptability and tenacity! Water signifies calming and flowing emotions, and the Moon controls the moods and emotions on Earth! Cancer is the first of the water signs to balance and compliment the previous elementary signs. Cancer is without doubt a most endearing astrology sign to be! This sign is ultimately compassionate!

Cancers are naturally profound and quite inspirational to watch in times of hardship. Security is very important to them, and they are more than prepared to earn it! Cancer people have a natural ability to care; even their environments offer us warmth, comfort and respectability. In times of need, our wise and intuitive Cancer friends will help us pick up the pieces of our failure, and help us get back on track. It is hard for them not to care as they do, as they sincerely do wish for a peaceful existence!

Cancers are determined when presented with any amount of responsibility, and they do not often let the team down. They are protective by nature and are forever watchful over loved ones, perhaps even over protective at times. Cancer is an exceptionally loyal sign and they expect loyalty in return! Their superb loyalty resides deep within their hearts! If they support your cause, you will know it!

However, if they question your support, that means you may have already upset them, and that they will remind you of their displeasure! They can be rather blunt at times and even prone to holding grudges, but only until they have vented their dismay personally. Cancers do not sit on the fence! They can be judgmental at times, and quite manipulative when forced on particular issues of concern!

Cancers much prefer to resolve rather than retreat! They may not realize it at first, but they can adapt to any situation in order to fulfill their ambitions. They are however subject to over worrying, which can easily affect their moods. Given the pressures they can endure, Cancers are likely to enjoy the Arts. It gives them a chance to escape within an inspiring story. However, they have to be careful not to lose themselves in a romantic dream. Idealism can easily be derived from a fanciful imagination!

Cancers make great friends, parents, and children because they really do care! They are busy either working or caring, so their time is quite limited. They may prefer to throw a party rather than attend too many, simply because of their busy schedule. Lucky for us they make for simply fabulous hosts!

Cancers shine brightest with Good Karma when they are spontaneous, affectionate and imaginative!
